

## IntelliPlan<sup>SM</sup> Platform

Transform your supply chain and deployment management with Zones IntelliPlan<sup>SM</sup>, an advanced demand planning and fulfillment platform that streamlines hardware deployment through intelligent forecasting and real-time analytics. The platform optimizes inventory levels, reduces lead times, and provides automated alerts for seamless technology rollouts across your organization.

IntelliPlan<sup>SM</sup> is a key tool combined with Zones expert Project Management.

IntelliPlan<sup>SM</sup> handles every aspect of your supply chain and deployment planning needs, from demand forecasting and inventory management to collaborative planning and comprehensive reporting.

### Core Capabilities

#### Forecasting Methodologies

- Implements multiple advanced forecasting algorithms to improve IT asset ordering and safety stock management
- Provides effective handling of lead time variations
- Enables precise control over service levels and safety stock investments
- Optimizes deployment planning through historical data analysis

#### Rapid Reporting and Alerting

- Generates robust reports for monitoring business initiatives
- Automatically flags issues through intelligent alert conditions
- Tracks critical metrics, including:
  - Lead time delays
  - Cost variations
  - End-of-life impacts
  - Capacity constraints

#### Integration Capabilities

- Seamless integration with existing supply chain systems
- Compatible with major ERP and inventory management platforms
- Real-time data synchronization capabilities
- Customizable reporting and dashboard options
- API-enabled for extended functionality

#### Collaborative Planning

- Supplier collaboration through precise aggregate demand forecasting
- Zones and supplier capital for optimal buffer management
- Proactive planning and event modeling
- Cross-stakeholder communication and coordination

**Combine IntelliPlan<sup>SM</sup> with Zones Store and Branch Rollout services, IT Integration, and Customized Configuration Solutions for comprehensive technology deployment management.**

### Zones Advantage
