

Store & Branch IT Rollout Services

Transform your technology deployment initiatives across all sites, from new IT setups for stores and clinics to branch expansions, office relocations, technology refreshes, and equipment modernization with Zones Store and Branch IT Rollout services. We ensure timely delivery and implementation of end-user devices, point-of-sale systems, network equipment, and security hardware across your retail stores, healthcare facilities, financial branches, and public sector locations. From procurement and configuration to staging, installation, and support, we handle every aspect of your technology rollout needs across all your locations.

SERVICE OFFERINGS

IntelliPlanSM Platform

Our demand planning platform streamlines hardware deployment by leveraging historical purchasing data and advanced forecasting algorithms to optimize inventory levels, reduce lead times, and provide automated alerts for potential deployment issues. IntelliPlanSM ensures you have the right devices in the right quantities, at the right location, and at the right time.

Project Management Services

Dedicated project managers coordinate every aspect of your hardware deployments, from initial device procurement to final implementation. We handle timeline optimization, resource allocation, and deployment coordination while providing real-time visibility into project status across all your locations.

White-Glove Deployment Services

End-to-end logistics management, including secure warehousing, just-in-time delivery, and on-site installation. Our comprehensive chain of custody tracking ensures secure, efficient deployment of all technology assets to your locations.

BUSINESS BENEFITS

- **Reduce technology deployment time through parallel implementations**
- **Eliminate risks of inconsistent configurations and deployment delays**
- **Standardize technology implementation across locations**
- **Minimize operational disruption during technology upgrades**
- **Optimize hardware inventory management**
- **Accelerate new location technology readiness**
- **Enhance visibility and control over technology assets**
- **Simplify procurement and logistics management**
